Tool **C01/0279** enables the setting and checking of the camshaft timing on older TSI petrol engines (3 and 4 cylinders) of the Volkswagen Group.

The timing tool should be used in combination with the C01/0275 kit

Supported engines include 1.0l, 1.2l and 1.4l TSI petrol engines, including the TSI ACT and EA211 (3 and 4 cylinders, without ACT) variants.

Note: If the procedure is carried out correctly, there will be no need to interact with the OBD system

Safety information:

1. Before using the tool, make sure that the vehicle is securely stationary and secured against accidental movement.
2. Use appropriate protective equipment, such as gloves and safety glasses, to prevent injuries.
3. Work in a well-ventilated area. Avoid inhaling fuel fumes and other harmful substances.
4. Follow the manufacturer's instructions. Failure to follow the instructions can result in damage to the engine or tool.
5. Regularly check the condition of the tool. Make sure that all parts are in good condition and functioning properly.
6. Do not use the tool near sources of ignition or in places where flammable materials may be present.
